

Adobe Creative Cloud site license

Flexible licensing options for primary and secondary schools and districts

Bring Adobe Creative Cloud to your school or district with affordable, easy-to-manage site licensing options available through the Adobe Value Incentive Plan (VIP). You'll enhance teaching and learning while helping students develop essential digital skills for college and career success.

Site license benefits:

- **Universal access**—Give your students, teachers and staff access to the latest industry-leading creative software so they can design, share and publish compelling communications across all media and devices.
- **Budget predictability**—A low-cost, flat-fee, single-license purchase with one annual or multiyear contract for school-owned or leased computers, with the ability to cover more at the time of purchase.
- **Flexible deployment and management**—Designed for an individual school or district, a site license offers a web-based Admin Console that makes it easy to centrally manage and deploy licenses.
- **Classroom and home use**—Schools have the flexibility to use licenses for in-classroom deployment, including BYOD environments, or at home on teacher-owned machines.
- **Free instructional resources**—Your educators can access the Adobe Education Exchange for free professional development, teaching resources and peer-to-peer collaboration to help them get up to speed on Creative Cloud apps and ignite creativity in the classroom.

Flexible Purchasing Options

Adobe now offers two great options to schools and school districts - simply choose the licensing model that works best for your school. Or implement both licensing options. All Adobe Creative Cloud K12 Site Licenses can be easily managed through a single administrator console in the Adobe VIP Admin Console.
