

Google Workspace for Education

Empower educators to do their best work

The Teaching and Learning Upgrade can be added to our Education Fundamentals or Education Standard editions* to transform learning with enhanced video communication, enriched class experiences, and integrated tools for more efficiency.

Build stronger connection with enhanced capabilities

Help students connect, focus, and further their learning with engaging tools that foster an inclusive learning environment.

Enrich learning with individualized experiences

Strengthen instructional impact with tools that can make learning more personal and give educators quicker insights into students' understanding.

Improve classroom efficiency with integrated tools

Create more time for teaching and learning, and tailor the educational experience with integrated, secure tools.

Secure-by-design infrastructure that you can trust

Google-grade security and reliability are built in, giving you and your school community peace of mind. All features within the Teaching and Learning Upgrade are ad-free, and each virtual meeting is automatically encrypted.

Google Workspace for Education

Deepen every learning opportunity

The Teaching and Learning Upgrade provides enhanced capabilities in Google Meet, Classroom, and Assignments. It works seamlessly with the other productivity tools in Google Workspace for Education, like Gmail, Docs, Calendar and more.

Connect

- Connect with up to 250 participants in Google Meet or live stream to larger audiences via YouTube
- Get students engaged virtually with interactive tools in Google Meet and live stream* like Q&As, polls, and breakout rooms
- Easily monitor and keep classes on track in Google Meet with attendance reports
- Record meetings, automatically save them to Drive, and even transcribe them to searchable Google Docs

Enrich

- Transform new and existing teaching content into engaging and interactive assignments using practice sets in Classroom
- Use practice sets to give students real-time feedback and automated hints that help them build confidence and stay engaged
- Save time identifying potential plagiarism and help guide authentic student work with unlimited originality reports
- Identify peer matches by scanning work against a private domain-owned repository of past student submissions

Integrate

- Create more compelling content by integrating your favorite third-party tools right inside Classroom, all accessible with a single sign-on
- Seamlessly integrate your favorite Classroom add-ons,* including IXL, Pear Deck, Kahoot!, and Nearpod
- Provide access to a marketplace of add-ons directly from Classroom, so teachers can choose exactly what they want
- Enable administrators to push add-ons to individuals or groups of teachers, such as by grade level or topic

Get the storage you need.

For each license, add 100 GB to your shared pool of storage, which ensures enough space to save recorded lessons and more in Google Photos, Drive, or Gmail.

Choose how many licenses to buy.

Flex your budget by consolidating the cost of additional enhanced tools onto a single platform, and only pay for the licenses you need.

Enhance your digital security.

Proactively protect your school community with [Education Standard](#) premium security and insight controls so teaching and learning never stop. Or upgrade to a comprehensive solution with [Education Plus](#), which includes both enhanced teaching and learning tools and proactive security and insights.
